<sup>1</sup>Annual employer contributions and investment gains fund the total cost of the Retirement Plan. Neither employees nor retirees are required to contribute to the Retirement Plan. Contributing employers are: AgCountry Farm Credit Services, AgHeritage Farm Credit Services FLCA, AgriBank FCB, Compeer Financial FLCA, Farm Credit Foundations, Farm Credit Illinois FLCA, Farm Credit Mid America FLCA, FCS Financial FLCA, Farm Credit Services of Mandan, Farm Credit Southeast Missouri FLCA, Farm Credit Services of Western Arkansas, GreenStone Farm Credit Services ACA and SunStream Business Services.

<sup>2</sup>Market value, the amount of money available to pay benefits and reasonable plan expenses, is \$1.214 billion as of Dec. 31, 2023.

<sup>3</sup>Market-based funded status (ratio) is equal to the market value of assets divided by the market-based liability. At the direction of participating employers in 2014, the Trust Committee for the Retirement Plan adopted a pension de-risking strategy that projects the Retirement Plan to be 100% funded by 2025. Retirement Plan assets are held in trust for the sole purpose of paying benefits to plan participants, beneficiaries and plan expenses. Participating employers are responsible for funding the plan, which is a government plan not subject to the Pension Benefit Guaranty Corporation.

<sup>4</sup>Plan participants as of Dec. 31, 2023: 1,023 active employees, 3,054 retirees receiving benefits, 1,217 former employees entitled to a future benefit.

This update provides certain highlights of the Retirement Plan. It does not supersede the actual provisions of the plan document, which in all cases are the final authority and can be changed at any time.
